

Saturday, September 7

7:30 AM – 7:50 AM

Prostate Cancer Screening and diagnosis for the APP

Presenter: Christina Rowland M.; CNP

- Objectives:
 - Review the Early Detection of Prostate Cancer AUA/SUO Guidelines 2023 statements and compare to prior guidelines from 2018 focusing on rationale, LOE and strength of recommendations.
 - Apply the Early Detection of Prostate Cancer AUA/SUO Guidelines 2023 to different patient scenarios with the goal of increasing benefits to patients while decreasing potential harm
 - Review indications for MRI of the prostate and biomarker usage in screening for Prostate cancer

7:50 AM – 8:10 AM

Reconstructive Update for APP:

Presenter: Alex Vanni, MD

- Objectives:
 - Understand the relevant anatomy for patients undergoing urethroplasty
 - Understand the basic types of urethroplasty procedures
 - Understand routine urethroplasty post-operative care and common perioperative complications and management

8:10 AM – 8:30AM

Urodynamics: Introduction

Presenter: TBD

- Objectives:
 - Overview of urodynamic testing, with the goal of equipping APP colleagues with better understanding of the test and interpreting findings.
 - Appreciating the indications for urodynamic testing.
 - Setting expectations on what information the test provides (and what it does not)
 - Gaining a better understanding of the different testing components and findings.

8:30 AM – 8:50 AM

Transgender Care for the APP

Presenter: Khushabu Kasabwala, MD

- Objectives:
 - TBD

9:00 AM – 10:00 AM

Sex Therapist

(50 min with 10 min for questions)

Presenter: Michele Waldron, Psy.D, LADC-I, CSCT

- Objectives:
 - What happens (and doesn't happen) in sex therapy?
 - Overview of the Biopsychosocial model as a framework for assessment and interventions
 - Common sex therapy approaches (mindfulness, sensate focus therapy, Cognitive Behavioral Therapy)
